

Information Booklet

for

Parents of Infants
Starting Tubber N.S

Foreword

Fáilte romhat agus roimh do pháiste.

Starting school will be the first big change in the life of your child. Up to this s/he has felt safe and secure with you in the home and family but now he is facing the wider world of classroom and school. This may seem a big step for someone so small but most children manage it without any great fuss or stress - and in fact take to it like ducks to water.

However, it is also a time when parents and teachers should take special care to ensure that the transition from home to school is as smooth as possible. If the child's first experience of school is one of happy involvement, a very good foundation will have been laid for fruitful school years ahead.

It is important too, particularly during the first year that parents understand what the aims of the school are, as many may be expecting too much in the way of academic achievement.

We know from experience that parents are very anxious to help in any way possible. We have, therefore, included some

ideas for the home, which should stimulate the child's interest and nurture his desire to know more.

With these aims in mind we have put together this little booklet as a general guide for parents. It deals briefly with the period before your child comes to school and his introductory stage in Junior Infants.

We trust you will find it helpful and that your child will be happy and fulfilled with us.

Getting Ready for Learning

Children are natural learners. They have an inbuilt curiosity and an eagerness to know more about everything - about themselves, about others and about the world around them. And they learn fast - but only when they are ready and their interest is aroused.

Because they come to us so young we must guard against putting pressure on them to learn what they are not yet ready for. Demanding too much too soon can switch a child off completely. At the same time we must cultivate readiness so that they can get moving as soon as possible.

The **rates of progress of children can vary greatly**. We try to give them an opportunity to move ahead at their own pace or as near to it as possible.

Our first year in school therefore, is mainly about settling in, relating to others, making friends, feeling happy and gradually getting used to the routine of the school. On the learning side the emphasis is on getting children ready for learning by -

- Developing their **oral language** and expression.
- **Sharpening their senses**, especially seeing, hearing and touching.
- Developing **physical co-ordination** especially of hand and fingers.
- Extending their **concentration span** and getting them to **listen attentively**.
- Learning through **play** - the most enjoyable and effective way.
- **Co-operating** with the teacher and other children.
- Performing **tasks by themselves**.
- **Working with others** and sharing with them.
- Getting each child to **accept the general order**, which is necessary for the class to work well.

Before Your Child Starts...

You should ensure that he is **as independent as possible** - physically, emotionally and socially. If he can look after himself in these areas he will feel secure and confident and settle in readily.

It would help greatly if he is able to-

- **Button and unbutton his coat** and hang it up.
- **Use the toilet without help** and manage pants buttons
- **Also encourage personal hygiene** and cleanliness. Your child should know to flush the toilet and wash his hands, without having to be told.
- Use his handkerchief when necessary.
- **Share** toys and playthings with others and "take turns".
- **Tidy up** and put away his playthings.
- Remain contentedly for a few hours in the home of a relation, friend or neighbour. If he had this experience, then separation from his parents when he starts school will not cause him any great anxiety.

Preparing for the 'Big Day'

The child's first day at school is a day to remember for the rest of his life. **You can help to make it a really happy one for him.**

- **Tell him about school** beforehand, casually, and talk about it as a happy place where there will be a big welcome for him and he will meet new friends.
- **Don't use school or the teacher as a threat.** "If you behave like that for teacher she'll murder you" though said light-heartedly can make some children very apprehensive.
- If you feel it would help, you could take him for a stroll to the junior classrooms and play area on an afternoon during June when the other children have gone home. He can browse around and become familiar with his new environment. On arrival you could drop in to meet the Principal with him and perhaps he could meet his teacher, as well.
- He will like to have **his new uniform and his new bag** when he begins. These help him identify more readily with the school and other children.
- Some of your child's books will be taken from him, the first day of school and the teacher will hold on to them until such time as they are needed. This minimises books getting lost. Please have your child warned of this fact; in case he thinks they will never see the books again. All books/copies must be marked with your child's name and readers must be covered. Your child will only feel im-

portant if he has something in his school bag, so perhaps you could buy a copy or colouring book for him, which he could use at home.

The Big Day

Coming in...

When you arrive at the classroom, **be as casual as you can**. S/He will meet the teacher and the other children and will be shown his chair.

Hopefully he will be absorbed in his new surroundings. So having assured him you will be back to collect him, wish him goodbye and **make your getaway without delay**.

Packed Lunches

Lunch is an important meal for school going children. It should provide one third of their recommended daily allowance of nutrients without being high in fat, sugar or salt. It should also provide dietary fibre (roughage).

The **traditional packed lunch of milk and sandwiches is under attack from a range of convenience foods** like crisps, sweets, biscuits, chocolate and soft drinks. Parents and teachers are concerned about this trend but some find it difficult to come up with popular healthy alternatives.

We will ask you to encourage a healthy lunch right from the start. Also, please, only give your child something you feel he/she can easily manage to eat. Children are not normally very hungry at school, so a little snack will do.

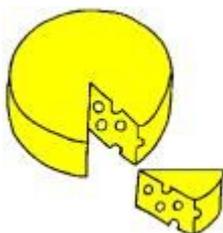

A Healthy Lunch

The following guide is designed to help you provide quick, appetising, and nutritious lunches for your children.

Bread & Alternatives

Bread or rolls, preferably wholemeal, Rice - wholegrain, Pasta - wholegrain, Potato Salad, Wholemeal Scones.

Savouries

Lean Meat, Chicken/Turkey, Tinned Fish e.g. tuna/sardines, Cheese, including Edam, Cheddar, Cottage Cheese etc, Quiche, Pizza.

Fruit & Vegetables

Apples, Banana, Peach, Plum, Pineapple cubes, Mandarins, Orange segments, Grapes, Fruit Salad, Dried fruit, Tomato, Cucumber, Sweetcorn, Coleslaw, Celery.

Drinks

Milk, including low fat, Fruit juices, High juice Squashes, i.e. low sugar content, Yoghurt.

Start with the Basics

A healthy packed lunch should contain bread or an alternative, a savoury filling which provides protein, a suitable drink and some fruit and/or vegetables.

A Word about Milk

Growing children should get approximately one pint of milk a day, or its equivalent as cheese, yoghurt or milk pudding. This ensures that they get enough calcium, which is essential for healthy bones and teeth. If a child does not drink a glass of milk at lunch, encourage him or her to have a carton of yoghurt or a small helping of cheese instead.

Going Home

- Be sure to **collect her/him on time**. Children can become very upset if they feel they are forgotten.
- Keep out of view until the children are released.
- If at any time the collecting routine has to be changed ensure you tell the child and the teacher.

Stationary:

Please ensure that your child has, clearly labelled:

- * at least 2 pencils, preferably thick to suit a beginner,
- * a sharpener to suit the pencils,
- * some colours of some kind are an advantage. We recommend coloured pencils as they last longer and are sturdy,
- * a sturdy rubber.

Two Items to be Sent Into School:

1. A small, cylindrical box (mixed herb, curry powder, or spice box etc.) clearly labelled with your child's name, to be used for learning words and letters.
2. A big old T-shirt, clearly labelled for use as an art apron and kept in school. An old shirt with the sleeves shortened is also very good.

Assessment;

Informal assessment will be continually made by your child's teacher. At the end of Junior Infants our learning support teacher will oversee a specific standardised reading test.

Every year near in the Spring term one evening is taken over with parent- teacher interviews which provide an opportunity for discussing each child's progress. Please do not hesitate to approach the Junior Infant teacher at any time if there is a point upon which you

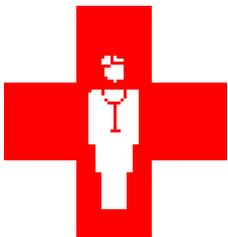

feel anxious, however if you wish a more detailed discussion please arrange a convenient time in advance. Formal written reports are sent out at the end of the Summer term.

Breaks:

There are two breaks during the day, a short indoor one from 11.00 to 11.10 and a longer outdoor break from 12.30 to 1.00. We try to ensure that no child feels lonely or left out, and, to this end we recommend that older brothers, sisters and friends do not monopolise the younger children's playtime which may restrict them in forming peer attachments.

Health and Safety:

As part of our school health programme we encourage regular washing of hands, particularly around eating time and after toilet use. We are not however always able to oversee this so please remind your child of its importance. Unfortunately germs and viruses spread very quickly in a classroom environment so it is vital that the children are encouraged to use a tissue when blowing their nose and to cover their mouth and turn away when coughing.

If your child develops any contagious illness such as chickenpox please keep him away from school until the period of contagion is over and inform his teacher immediately. We recommend that you check your child regularly for lice and scabies which are highly contagious, treat immediately if they occur and inform the teacher so that notification

of possible risk may be sent out to other parents. All information regarding your child's health is treated in the strictest confidence.

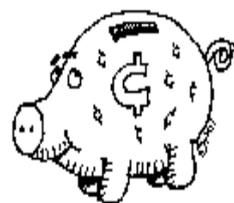

Occasionally your permission will be required for dental, eye or other health examinations.

Information Bulletins:

Please keep an eye on your child's lunch box and school-bag as they may contain notes for parents.

Savings Scheme:

The school takes part in a voluntary savings stamp scheme with the Post Office. If you wish your child to save a little each week, please send in some money with him on Tuesday morning (each stamp costs 1 euro) On starting to save each child will receive a little savings book. Each book will be sent home as the book is filled.

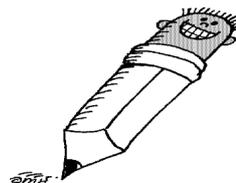

Preparing Your Child for Schoolwork:

Good writing is all about muscle and motor control so it will help your child greatly if he is practised at colouring, drawing, painting, manipulating materials such as plasticene, construction work, jigsaws etc. Noting visual differences is essential to reading and this skill is practised and encouraged by use of matching games, construction work, jigsaws etc. Reading aloud to your child will cultivate an interest in, and love of reading

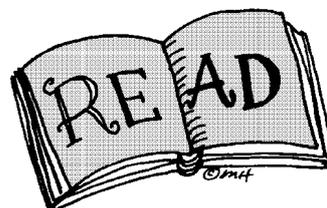

Writing:

Your child will be learning to write lower case letters initially so it would be very helpful if you could stick up your child's name written in this way perhaps on his bedroom door so that he can be familiar with it. If he can be practised in writing it this is even better!

Reading:

We use a combination of two approaches, look-and-say and phonetic.

Clothes:

The children wear the standard uniform but they need to change into indoor footwear (slippers). Please ensure that all clothes likely to be removed i.e. coats, hats, scarves, gloves, jumpers etc. are clearly labelled with your child's name as many children possess similar items. We have some spare clothes and underwear for use if needed however if your child has any toilet problems please let the teacher know and send in a spare set of clothes for emergencies. We do not recommend trousers with clasps or belts which may be difficult to open. We recommend shoes with velcro straps as they are easy for the infants to manage.

School Opening and Closing Times

School commences at 9.20 a.m. and the infant day finishes at 2.00 p.m.

Handling the Upset Child

In spite of the best efforts of both teacher and parents a small number of children will still become upset. If your child happens to be one of them don't panic. Patience and perseverance can work wonders.

A Word of Advice

- **Trust the teacher.** She is experienced and resourceful and is used to coping with all kinds of starting -off problems.
- **Try not to show any outward signs of your own distress.** Sometimes the parents are more upset than the child and are the main cause of his anxiety.
- When you have reassured him, leave as fast as possible. The teacher can distract and humour him more easily when you are not around.
- Check back discreetly in a short while. You will invariably find that calm has been restored.
- **You must be firm from the start.** Even if a child is upset you must insist that he stay for a short time-even ten minutes. He must never feel that he is winning the psychological battle of wills.

Developing his Command of Spoken Language.

It is important that the child's ability to talk is as advanced as possible. It is through speech that he communicates his thoughts and feelings, his needs and desires, curiosity and wonder. If he cannot express these in words he will tend to remain silent and will often withdraw from the learning activity of the class. This can be the first sign of failure in the school system and must be remedied, if at all possible. That is why a lot of attention is given to language development in the first years of school.

You Can Help....

- Talk to your child naturally and casually about things of interest that you or he may be doing-at home, in the shop, in the car, etc. Remember that all the time he is absorbing the language they hear about them. It takes him a while to make it his own and to use it for his own needs.
- Try to make time to listen when he wants to tell you something that is important to him. But don't always make him the centre of attention.
- Answer his genuine questions with patience and in an adequate way. Always nurture his sense of curiosity and wonder.
- Introduce him gently to the ideas of why? How? When? Where? If? etc. These demand more advanced language structures.
- He will have his own particular favourite stories that he never tires of hearing. Repeat them over and over again

and gradually get him to tell them to you.

First Steps in Reading

Ability to read is the foundation for all future progress in our school system. However, learning to read is a gradual process and a lot of preparatory work must be done before a child is introduced to his first reader.

We very deliberately do not rush or push children into reading. We get them ready for it over an extended period. Reading is something to be enjoyed. It should never start as a chore for the small child.

You can Help..

- Have attractive colourful books in the home.
- Read him a variety of stories from time to time. He will get to associate these wonderful tales with books and reading.
- You must convey to him gradually that books are precious things. They must be minded and handled carefully and put away safely.
- Look at the pictures with him and talk to him about what they say.
- Read him nursery rhymes. He will learn them off his own bat. Don't try to push him.
- Above all, don't push him with his early reading. You may turn him against it for evermore.
- Remember that the teacher is the best judge of what rate of progress is best suited to each child.
- Sing the alphabet song with your child, so that he at least heard of the letters. If he knows what each one looks like, all the better.

Understanding Maths

First a Word of Warning!!

Maths for the small child has nothing to do with "sums" or figures or tables or adding and subtracting. These will all come much later. Maths is really part of the language he uses in understanding and talking about certain things in his daily experience e.g.

- He associates certain numbers with particular things - two hands, four wheels, five fingers etc.
- Counting - one, two, three, four, etc.
- Colours - black, white, red, green, etc.
- Prepositions (telling position) and their opposites: over/under, before/after, inside/outside etc.
- Matching/Sorting - objects of the same size/colour/texture/shape etc.
- Odd One Out - difference in size/colour etc. Understanding these concepts comes very quickly for some children. For others it takes a long time. Be patient. You cannot force Maths understanding on a child.

But You Can Help...

- In the course of your ordinary daily routine in the home, in the shop, in the neighbourhood you should use suitable opportunities to casually introduce the maths vocabulary referred to above. E.g. How many cakes? The glass is full/empty. We turn left at the lights.
- The child gets to understand Maths best by handling and investigating and using real objects. This has been his

natural method of learning since he was a baby. This at times can be a nuisance but if it allows him to do the learning himself the final result is well worth it.

Gaeilge

All children enjoy learning another language besides their own language. They have no difficulty in picking it up because it fascinates them as another code of communication.

They are free of any hang-ups about Irish unless they become aware that the home attitude towards it is not good.

So please be careful that anything you say does not give a negative attitude to your child.

We would want his parents to give every encouragement and help to the small ones in their efforts to acquire Irish.

If they learn new words in school encourage them to use them at home. Use little Irish phrases or words now and again. Children are delighted to find out that their parents are into their new code as well. If they must learn Irish, let them enjoy it and master it to the best of their ability.

Getting Ready For Writing

Making letters on paper is not easy for the small child. He must learn to hold the pencil properly and make regular shapes. His hand and finger muscles are only gradual-

ly developing at this stage.

You Can Help...

- He must develop the ability to get the hand and eye working together. This is very important. Get him manipulating toys like:
 - (a) Jigsaws, Lego, beads to thread etc
 - (b) Plasticene (Marla) to make his own shapes
 - (c) A colouring book and thick crayons
 - (d) Paper that can be cut up with a safe scissors
- When he begins to use a pencil make sure that he holds it correctly at the start. It will be difficult to change him later.
- He may be making block letters at home even before he comes to school. This is fine. But when he starts making lower case letters at school you should try to get him to discontinue the blocks and practise his new system whenever he feels like it. Consult the teacher about this.
- Don't discourage left-handedness. If that is his definite natural inclination, don't attempt to change him.

Other Areas of the Curriculum

The child in juniors learns a lot through many other activities, which do not need any elaboration here. His general development is enhanced through Art & Craft, P.E., Music, Nature and of course through Religious Education.

In regard to the last area its moral and social aspects are covered right through the school day e.g. kindness to others, sharing with them, saying we are sorry, being aware of God through the beauty of nature etc.

The children learn their prayers and bible stories gradually. Again, as in the other areas we referred to already, the child will benefit from practising at home what he has learned at school. He can then make his own contribution to the usual family prayers.

Social skills are very important. We encourage good manners at all times, please/thank you, addressing teachers properly, being courteous to fellow students and teachers. It is important to ask your child whom he played with at school and to ensure he isn't alone, also encourage mixing rather than being dependent on one friend only. **Rough behaviour is totally discouraged in the playground.** You will be given a copy of school rules and policies in September.

Parting Thoughts

Who is the Boss?

Bit by bit the child will get used to the general discipline of

the classroom. He will get to understand very quickly that in certain important matters an instruction from the teacher must be obeyed promptly and without question.

Teacher and Parent

At the early stages some parents meet the teacher almost daily and this is a very desirable thing. However, if there is something in particular that you would like to discuss you can arrange to meet her at a time when you both can have a little peace and quiet.

Easy Does It

There are lots of ideas and suggestions in this little book as to how you can help your child.

We are not advocating that you do ALL of these with him in a systematic way.

But if you find from time to time that he enjoys a fun approach to certain aspects of learning then we would say - give it a go - but remember **don't overdo it.**

Our Hope

We are offering this Guide to Parents as a little practical help in dealing with the education of their children at the very early stages. We will be very happy if you dip into it from time to time and find something in it of value to you and your child.

"Mol an óige, agus tiocfaidh sí"

Uniform Requirements

Boys:

Maroon v-necked jumper with strip on v-neck (available from the National Schoolwear Centre, Galway).

Grey trousers

White/grey shirt

Maroon and Grey diagonally striped tie (also available from the National Schoolwear Centre, Galway)

Slippers (for indoor use)

Runners/trainers (from yard playtime)
